Professional Summary

Information Systems undergraduate pursuing a career in Business Analysis, with hands-on experience in requirements elicitation, user stories, acceptance criteria, process mapping, UAT, and Agile delivery. Experienced in collaborating with technical teams, documenting business and solution requirements, and supporting end-to-end software projects. Strong analytical, communication, and problem-solving skills with practical exposure to Jira, Confluence, UML, BPMN, and requirements traceability.

Experience

Dialog Axiata PLC

Jun 2023 - May 2024

Customer Service Associate (Full-Time)

- Gathered stakeholder requirements at the Customer Interaction Centre (CIC) across Dialog's QuadProduct suite to diagnose system issues, clarify functional needs, and identify suitable solutions.
- Analyzed billing and provisioning workflows, documenting recurring defects through Change Requests and service logs to identify process gaps and support improvements.
- Worked with CRC teams during service incidents to resolve customer issues within SLA targets, strengthening cross-functional communication.

Education

University of Colombo School of Computing (UCSC)

May 2024 - Present

BSc in Information Systems

Current GPA: 3.46 Expected Graduation: 2027

Hindu College Colombo

Graduated 2022

GCE Advanced Level (Maths Stream, English Medium)

Results: 2 Bs, 1 C (Z-Score: 1.22)

Projects

GridX - Peer-to-Peer Energy Trading Platform

Tech Stack/Tools: TypeScript, Node.js, PostgreSQL, Docker, gRPC, GitHub, Jira, Agile/Scrum

Group Project 

- Defined business and solution requirements by drafting epic and story-level requirements with acceptance criteria for core modules.
- Created and maintained a Requirement Traceability Matrix linking business requirements to user stories and test cases to track solution coverage and manage scope changes.
- Facilitated bi-weekly backlog refinement and stand-ups, collaborating with team members across technical areas to clarify requirements and follow up on tasks.

AutoNexus - Vehicle Repair & Service Station Management System

Tech Stack/Tools: PHP, HTML, CSS, JavaScript, MySQL/MariaDB, MVC, XAMPP, Jira

Group Project 

- Analyzed existing service workflows and mapped visual "As-Is" vs. "To-Be" process flowcharts to identify operational bottlenecks and support process optimization.
- Supported UAT coordination and collected feedback to validate solution functionality and ensure alignment with identified business requirements.
- Configured user access permissions, custom fields, and functional rules within Jira for customer and billing modules to support effective solution delivery.

SwiftTrack - Middleware Architecture for SwiftLogistics

Tech Stack/Tools: Node.js, Express, Python, Flask, PostgreSQL, RabbitMQ, WebSockets, Docker Compose, REST, SOAP/XML, TCP

Group Project 

- Designed an integrated middleware platform using an API Gateway to connect heterogeneous logistics systems through REST, SOAP/XML, and TCP protocol adapters.
- Implemented distributed transaction coordination using the Saga pattern, RabbitMQ publish-subscribe messaging, and WebSockets for reliable order processing and real-time updates.
- Containerized and orchestrated the multi-service platform with Docker Compose, integrating PostgreSQL with automated unit, integration, end-to-end, and load testing.

Zovro - Real-Time Ride-Sharing Platform

Tech Stack/Tools: React, Vite, Node.js, Express, PostgreSQL, JWT, Leaflet Maps, OSRM, CSS3 Individual Project 

- Developed a full-stack ride-sharing platform with live driver tracking, proximity-based matching, dynamic fare estimation, and interactive map-based dashboards.
- Built REST API services using Node.js and Express with PostgreSQL for relational data management and JWT-based authentication.

- Integrated React with Leaflet Maps and OSRM to support interactive maps, route visualization, and location-based ride coordination.

Key Skills

- **Business Analysis:** Requirements Elicitation, User Stories & Acceptance Criteria, Process Mapping, Backlog Refinement, UAT, SDLC.
- **Methodologies & Tools:** Agile/Scrum, Jira, Confluence, RTM, BPMN, UML, Draw.io, Figma, GitHub.
- **Soft Skills:** Stakeholder Communication, Written & Oral Communication, Collaboration, Problem Solving, Analytical Thinking, Organizational Skills, Time Management, Team Leadership.

Volunteering & Extracurriculars

Rotaract Club of UCSC

Treasurer

Jun 2026 - Present

- Manage project allocations and track club operational budgets using structured financial reporting systems and documentation.

General Member - Professional Development

Sep 2025 - May 2026

- Led end to end planning and logistics for professional skills development workshops, coordinating activities, timelines, and project based learning for undergraduate participants.

Sports - UCSC

- Represented UCSC in Rowing, Scrabble, and Hockey at Freshers' Tournaments, demonstrating focus and teamwork.

Hindu College Colombo

Prefect

Feb 2019 - Feb 2021

- Coordinated school wide event logistics, managed student body initiatives, and mediated peer conflict resolution.

School Hockey Team

Oct 2017 - Dec 2018

- Represented the school in inter school hockey competitions.

Certifications

Agile at Work: Planning with Agile User Stories

Aug 2026

Project Management Institute (PMI)

Introduction to Business Analysis

Jul 2026

International Institute of Business Analysis (IIBA)

Additional Information

Languages: English (Professional Working Proficiency), Tamil (Native Proficiency), Sinhala (Professional Working Proficiency)
